

DRINKING WATER ADVISORY LIFTED

LOCATION

The Drinking Water Advisory that had been in effect for your area is now over. The drinking water has been proven to be safe to consume. You may begin using your tap water as normal after you complete the following steps.

Before you consume the water:

- Run cold water faucets and drinking fountains for at least 1 minute before using the water.
- Drain and flush the ice-making system in your refrigerator.
- Run water softeners through a regeneration cycle.
- Drain and refill hot water heaters set below 45°C (normal setting is 60°C).

DRINKING WATER ADVISORY LIFTED ON:

TIME

This notice was delivered by City personnel on

_____ at _____ a.m./p.m.

QUESTIONS?

Information about the DWA, including status, is available at www.humboldt.ca or through the **Humboldt Connect** app.

To speak to someone about the DWA, or work being performed in the area, please contact:
City of Humboldt 306-682-2525.

It is our priority to ensure a clean, safe public water supply and to provide the highest quality drinking water possible.

Thank you for your patience.

*Thank you for
your co-operation.*
